

# Port Sections Guide

## Numbering of section

Read user guidelines first. Always check all adjoining sections

Port	Name of Port
Section	Fairway, basin, berth by name/number
Date	Date of last update

<b>Position (lat / lon)</b>	Degrees, minutes and decimals of minutes e.g. 34°47'.29N 136°07'.15E
<b>Minimum control-led water depth</b>	Metres and decimals (fathoms/feet if that is the unit in use on the chart)
<b>Chart date</b>	- Vertical: Lowest Astronomical Tide (LAT) - Horizontal: Geodetic system in use on the chart, ie WGS84, ED50 etc.
<b>Range of water densities</b>	E.g. 1015 - 1025
<b>Tidal range</b>	Metres and decimals
<b>UKC policy alongside</b>	For description copy-paste from 'UKC policy' in arrival/departure box
<b>Bottom type</b>	In accordance with Chart 5011 (INT 1) Section J
<b>Dredging regime</b>	Free text
<b>Distance pilot station to berth</b>	In nautical miles
<b>ISPS</b>	Free text
<b>Loading/unloading requirements</b>	E.g. Over The Tide Operations (OTTO), double banking, use of line boats etc.
<b>Free text</b>	Free text

Manoeuvre	Arrival
<b>UKC policy</b>	Minimum in metres and decimals or % of static draft or beam.
<b>Size restriction</b>	- By length/beam/draught/air draught (metres and decimals) - In case of airdraught specify chart datum - By tonnage (tonnes and specify type of tonnage)
<b>Tidal restriction</b>	By minimum/maximum (metres and decimals) or HW +/- xx hrs.
<b>Wind restriction</b>	By speed (knots – Met Office Glossary 1991)
<b>Visibility restriction</b>	By distance (nautical miles and decimals)
<b>Speed restriction</b>	Knots
<b>Passing requirements</b>	Free text
<b>Tug use</b>	Free text
<b>Berthing requirements</b>	E.g. use of line boats, no night time berthing, particular side, minimum number and material of lines, shore moorings, etc.
<b>Free text option</b>	Free text

Manoeuvre	Departure
<b>UKC policy</b>	Minimum in metres and decimals or % of static draft or beam.
<b>Size restriction</b>	- By length/beam/draught/air draught (metres and decimals) - In case of airdraught specify chart datum - By tonnage (tonnes and specify type of tonnage)
<b>Tidal restriction</b>	By minimum/maximum (metres and decimals) or HW +/- xx hrs.
<b>Wind restriction</b>	By speed (knots – Met Office Glossary 1991)
<b>Visibility restriction</b>	By distance (nautical miles and decimals)
<b>Speed restriction</b>	Knots
<b>Passing requirements</b>	Free text
<b>Tug use</b>	Free text
<b>Unberthing requirements</b>	E.g. use of line boats, no night time unberthing, etc.
<b>Free text option</b>	Free text
